

WOMEN MINORITY REPORT

THE MONTHLY NEWSLETTER OF THE WOMEN
MINORITY BUSINESS DEVELOPMENT CENTER

April 2024

Welcome!

The Women Minority Business Development Center is a program designed to offer technical business support to women of color business owners working in the Mississippi Delta. The staff assists clients with building business plans, referrals to partnering agencies, including financial institutions, government agencies, and more. If you are a minority woman small business owner who needs business support, don't hesitate to call us.

QUICKBOOKS TRAINING

On Monday, April 29th, the WMBDC hosted a QuickBooks for Small Businesses Training. Clients came to learn how to get started with QuickBooks, including entering the business and setting up the Chart of Accounts, to using the software to create invoices and review financial statements.

Thanks to our presenters, Trisha and Tasha Demby, owners of Divine Financial Solutions, or DFS, for the awesome job of training our clients! These ladies did a fantastic job of walking the clients through each step of the process of building the business profile and answered questions from the audience. Many trainees expressed their thanks and remarked on how much they learned.

If you missed the training but would like to learn how to use QuickBooks Online, contact us for more information!

Meet Our Incubator Clients

THE MIC MAGAZINE

It is with great pleasure that I report the good news of my success thus far in the Incubator program. I started the program last month and I had my best month of sales in the month of April. I was also awarded the Alice Thomas Tisdale Award on Friday, April 19, 2024 in Jackson, Mississippi from the Jackson Advocate newspaper which is the oldest black-owned newspaper in the State of Mississippi. Alice Thomas Tisdale is the most prestigious black woman journalist to ever hold a pen or a camera. She has been the post child reporter who has covered HIV/AIDS in America and abroad along with many other accomplishments throughout her tenure as publisher of the Jackson Advocate.-Angela Buckner

AN MEDI-ZEN

I'm a Doctor of Chinese Medicine & Licensed Acupuncturist. I started my health and wellness business in 2022 in MN. The birth of An Medi-Zen was initiated because I needed a safe space for healing, and protection from the chaos and challenges that I was met with in most western medicine health care facilities while dealing with personal health issues. I'm building a safe, healing environment that is willing to escort people on their journeys to better health and well-being. I also started An Medi-Zen to provide excellent options, solutions and resources, such as Traditional Chinese Medicine (TCM) & Integrative Health Care Services. I am passionate about sharing my knowledge and expertise with the communities that are unaware of the power of Holistic Medicine. I'm honored for the opportunity for An Medi-Zen to change how we all will see & experience medicine in MS. -Dr. Sharon Johnson-Eby
